Event Report

Title of the event	World Environment day
Organized Date	5 th June 2025
Name of the coordinator	Mr. Amol Ambekar Ms. Vaishnavi Wagh
Name of Participants	Students and Faculty members
No of participants	50
Objective of program	<ul style="list-style-type: none">● Raise Awareness: Educates millions of people globally on critical environmental issues such as climate change, plastic pollution, deforestation, and biodiversity loss.● Youth and Educational Impact● Schools and universities hold environment-themed events to inspire future generations.● Youth-led movements like Fridays for Future gain momentum.
Outcomes of the program	<ul style="list-style-type: none">● Global Participation and Awareness World Environment Day 2025 engaged millions of individuals, communities, and organizations worldwide. Educational programs, clean-up drives, tree planting initiatives, and digital campaigns.● Educational and Digital Outreach Educational institutions organized workshops, seminars, and essay competitions to educate students about environmental issues.● Global Collaboration Promotes cooperation between countries, organizations, and communities to address global health challenges.

Report of the Event

On June 5th, 2025, the Asian Institute of Pharmacy hosted a celebration in honor of World Environmental Day, with the theme "**Planting Medicinal Plants.**" This year's event emphasized the dual importance of environmental conservation and public health. The initiative aimed to raise awareness about the role of medicinal plants in sustainable healthcare and promote healthier lifestyles among students, faculty, and the surrounding community.

Event Overview

The celebration began under the guidance of principal Dr K. R. Dandagvhal with an opening ceremony attended by faculty, staff, students, and Botanologist Dr Prasanna Shety, Associate Professor (Retd.), Head of the Botany Dept., Bhonsala Military College, Nasik. The event was marked by various activities and discussion session.

Activities and Programs

The World Environmental Day celebration began with an informative session led by Botanologist Dr Prasanna Shety, who delivered a keynote speech on the importance of plants and their medicinal values. The speech emphasized how lifestyle choices impact overall well-being and they provided practical tips on maintaining good health. A **major highlight** of the day was the **plantation drive**, during which **20 medicinal plants** were planted by students and faculty across the campus grounds. This hands-on activity reinforced the theme of "**Green Remedies**", promoting environmental stewardship and sustainable healthcare practices.

The plants included:

- **Korphad (Aloe vera)**
- **Shatavari**
- **Brahmi**
- **Lemongrass**
- **Varieties of Tulsi (Holy Basil)**
- **Sarpagandha**
- **Datura**
- **Adulsa (Vasaka)**
- **Ashwagandha**
- **Sadaphooli (Periwinkle)**
- **Gokarna (Clitoria ternatea)**
- **Mimosa pudica (Touch-me-not plant)**

Feedback and Evaluation

1. Positive Feedback: The speech received positive feedback from students and faculty members.
2. Relevance: The topics discussed were highly relevant to the theme of **World Environmental Day** and were closely aligned with the students' academic focus and future career paths. The emphasis on **medicinal plants** and **sustainable healthcare** struck a chord with students pursuing studies in pharmacy, botany, and environmental science, offering them practical knowledge they could apply in their professional lives.
3. Expertise: The guest speakers, especially **Dr. Shety**, were experts in their fields, providing deep insights into **medicinal plants** and their role in environmental sustainability. Their expert knowledge added immense value to the event, helping attendees understand the broader impact of environmental practices on public health.

Conclusion

a standout feature of our **World Environment Day** celebration today was the insightful **guest session**. This provided all of us with valuable perspectives on the vital connection between **environmental sustainability** and **human health**. The discussions highlighted how protecting our environment—especially through the **conservation and use of medicinal plants**—plays a crucial role in promoting **public wellness**. It reminded us that by preserving and nurturing our natural resources, we can ensure a healthier and more sustainable future for all
